AlpsAV Multi-Control XL Mount

## Bigger. Faster. Smarter

The XL version of the Multi-Control Mount can handle large screens up to 135kg/300lbs. Big screen installation has never been this easy.

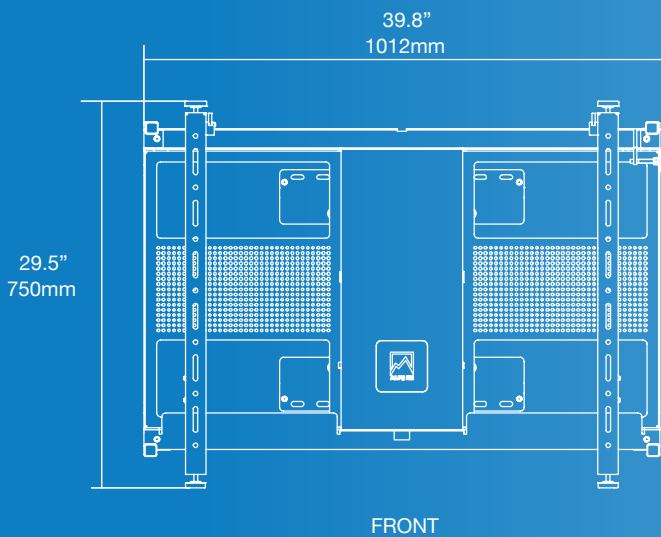

- › Multi-Control XL Mount allows precision movement of large and heavy screens (up to 135kg/300lbs). Provides seamless integration to recessed walls, frames and niche applications.
- › Move In – Out easily using PC/Mobile App, designated buttons or with the universal controller.
- › Easy display adjustment with an 8-point micro-adjust handwheel system.
- › No risk of leaving fingerprints or using excessive force on the screen.
- › Impact detection for additional safety.
- › Extreme reliability with redundant back-up release.
- › Easy to lock in position to avoid unauthorized screen removal.
- › Flexible with Portrait or Landscape orientation.
- › Fast and easy installation (all mounting hardware included).
- › Supports VESA 300x300, 400x400, 600x600 mm.
- › Supports up to VESA 1000x600 (P) or 800x1000 (L) mm (with included adapter)
- › Supports 65” screens and larger up to 135kg/300lbs.
- › Smart design for easier access and larger behind-screen space
